

Make your home energy efficient

As part of the Thornaby Town Deal, the Council have appointed a local contractor, Marshall and McCourt, to install energy efficiency measures including:

- insulation
- heating replacements such as boilers, radiators, heating controls
- double glazing

Qualifying criteria

You must live in the North Thornaby area as set out in the Towns Fund bid. You must also either own the property or privately rent the property.

The measures installed must provide one or all of the following benefits:

- provide financial energy savings for the property.
- increase the SAP rating of the property (measured through the Energy Performance Certificate).
- provide carbon emission savings for the property.

North Star, Accent and Thirteen Group customers are unfortunately not eligible.

The Council will authorise all measures before Marshall and McCourt carry out the work.
